Concentration with a Twist

This game reviews sentences from the lessons covering all three sounds of -ed.

Preparation: Glue cards onto stiff paper, cut out (lamination optional).

You might want to choose the sentence and word cards from the stories you read.

Play:

1. Spread all the word cards face down.
2. Place the stack of sentence cards face down in the middle. One player turns over the top sentence card and reads the sentence aloud.
3. Players must find the clue word by turning over the word cards.
4. If a player finds a match of two word cards that do not match the sentence card, he can keep the match on the side for later. If a player finds the right match, then he/she can pick a new question card.
5. Game ends when all the cards are matched. The winner is the player with the most sets of matches (2 words and a sentence card).
