

### Sophie and the Smartphone

Sophie is a very clever girl.  
When she was 10 she thought: " I want to be connected to all my friends and I want to take photos."

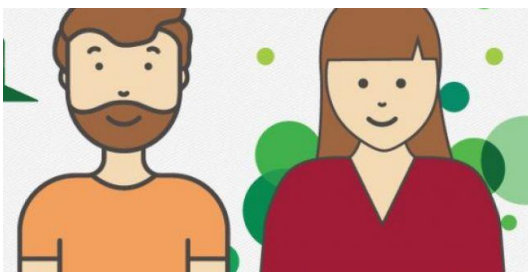

She asked her parents to buy her a phone but they said: "You're still young. You can go out to the park with your friends, you don't need a cellphone at your age".

After thinking about it for a few days she came up with an idea: to emphasize her wish with a graphic presentation, to convince Mom and Dad how important it is for her to have a phone:

Her philosophy was bright. Even her nephew Sam agreed.

Her parents thought about it. Finally they said: "You can have a smartphone. But remember the phrase: "nothing can replace a smile, a hug, or a friendly face."

Now Sophie is 17. She is a graffiti artist, who likes to express her feelings and thoughts not only with photos on screens but also...on walls.

### Wheel of Fortune: WH questions

The new words are organized around a wheel with the wh questions in the circle. There are two hands and a dice.

The cards are on a separate pile. You can add more wh questions and more cards.

Each student will throw the dice and will turn the hands as the number on the dice.

You can also play without a dice by picking a card, reading it and matching the answer to the right WH question.
