Snakes and Ladders

Preparation: Cut out the following 12 word cards , lamination of board and cards optional. The board is reusable, so you can make new cards for other lessons.

To play: Place the word cards in a pile face down

The player(s) begin by placing their game pieces on the START square. The first player rolls the die and moves forward that number of spaces. If you land on a space that says "WORD CARD" take the top card from the pile and read the word aloud. Player keeps the cards they read correctly.

If a player rolls a number that lands them at the bottom of a ladder and they get the word correct, they may "climb" to the square at the top of the ladder. If a player rolls a number that lands them on the head of a snake, then they "slide" down to the square at the snake's tail. The game finishes when all the players get to the FINISH square, with the first player to the end being declared the winner. You do not have to roll an exact number to finish the game.
