3x3 Puzzle: Vocabulary Definitions

Preparation: Laminate, cut out the squares on the dotted lines only (don't cut out the triangles).

To play: match the words to their Hebrew meanings, placing them together (the edges of their squares touching). Assemble the puzzle into a 3X3 square so that every word touches its definition. Words at the top and bottom of columns, and right and left ends of rows, should also match. There are multiple correct ways to arrange the squares. Learner should check the solution by checking all the pairs.
