

## The Treasure in the Picture

Aron favors culture and arts in particular. One day, Aron saw a nature picture for sale.

He paid for the picture and hung it on a wall with great pleasure.

After a few days, his five-year-old boy kicked his ball and it hit the picture. The picture fell on the floor and broke.

Aron was very upset. Suddenly, he saw an old paper hiding behind the broken frame. He opened the paper and to his great surprise he saw an old treasure map!

Aron said to himself: "Last time my search for a treasure was a failure.

This time however, I am sure it is going to work well!

And he went out for a new adventure!

You can also print the questions for offline use (see next page):

### NOTES ON THE ONLINE TREASURE HUNT: YOU CAN ADAPT IT TO ANY TEACHING CONTENT!

There is a clip on Youtube created by the extremely talented Teacher Zin. In this clip he shows the whole presentation. He allows everyone who watches his clip from beginning to end to download the presentation and even edit it with no restrictions at all. This is the link to the clip: <https://youtu.be/5VZ7JVGHjxs>

I took his presentation, kept the general style, items, structure and text, and changed the text in the challenges to fit the word list, added music at the beginning and made some small changes in the flow of the presentation. The great thing in his extraordinary presentation is that you can adapt it to any content and level. It's really a treasure for teachers.

I made some editing changes to the English in his presentation, since English is not his native language.

I expressed my gratitude by adding a link to his clip in my Treasure Hunt.
