

Let's Get a Puppy?

This morning my mother suggested to the family, "Let's get a puppy!" My father replied, "What!?"

I was filled with amazement!
"Let's go" I exclaimed!

My mother and I traveled quickly to the pet store. The people on the bus were filled with amusement at my happiness.

The salesperson said, "Your home had better be indestructible! This puppy is adorable, but unteachable, destructive, and filled with craziness".

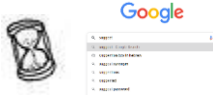

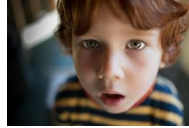

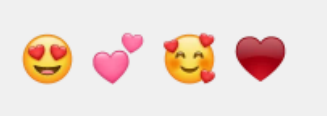

My mother said, "This puppy is unworkable, I like a peaceful home".

Our new hamster adores us already. He is much more manageable and agreeable. I am tying a ribbon around his cage.

Learning Suffixes - Go Fish (for single and multi-syllable words)

This game aims to practice the spelling rules with adding suffixes (-ing, -s, -ed, -er, -ent, -ful, -able, ly, -ous); the specific rules being taught are:

1. Words with one syllable ending in consonant: double the consonant
2. Words with more than one syllable ending in L: double the L
3. Words ending with consonant + y: drop the y and add an i
4. Words ending in ee or ye: no change
5. Words ending in ie: change the ie to y
6. Words ending in vowel + y: Keep the y
7. Words ending in y + suffix beginning in i: keep the y
8. Word ending in ce or ge + suffix beginning with a or o: Keep the final e
9. Words ending with e + suffix beginning with a vowel: keep the e.

There is one family for each of these rules; you don't need to play with all families but rather can choose according to your wishes for this class. Cut out the cards and paste them on to cardboard or laminate them. They can be printed in color to make it easier, or changed to black or white to make the game harder.

To play: Review the meaning of the suffixes in the game. Shuffle the cards. Deal each player four cards and put the remaining pile of cards face down in the middle. Players try to assemble families of four cards by asking the other player(s) for the card they want by name (example: "Do you have 'joy - joyful' from the 'keep the y after a vowel family?") If the player gets what s/he requested, she gets another turn. If not, the other player says, "No, Go Fish," and the first player draws a card from the pile. Lay down each family of four cards as it is assembled; the learner should explain the meaning of the suffix, then read the 4 pairs of words and state their meanings. Play until all the cards are laid out in families. The player with the most families wins. (Try to let the learner outsmart you.)
