Domino-ing:

The aims of this game are to 1) practice reading fluency using the suffix of -ing. 2) review spelling rules with- ing (magic e + -ing, -cvc + ing).

Preparation: Fold the dominoes tables down the middle on the dotted line, glue the front and back of each table back to back (ing/sit on the back of ing/sitt), laminate, and cut into dominoes.

Play: Divide the dominoes equally between players. In turn each player places a card next to one that is already placed on the table while reading the new word aloud. Student will need to decide which side of the domino piece to lay down based on the spelling of the word.

Game is over when there are no dominoes left.
