

### Dan's Test

Dan had a science test.

Dan thought and thought.

Dan did not know any answers.  
Dan did not know what to write.

Ben whispered to Dan: "You are so dumb!"

Dan was very sad.

Dan thought: "Should I copy the answers?  
Should I guess?"

Dan did not copy. He was afraid to get caught.

He guessed and he wrote.  
His answers were wrong.

The next day Dan decided to study.  
He studied very hard.

It felt like climbing a mountain.

"I will climb! I am not dumb!" he said to himself.

On Thursday, Dan had a math test.

Dan thought and thought.

"I studied! I know the answers!" he thought.  
"I don't need to guess!"

Dan wrote and wrote.

Dan got 100.

Dan was so proud.
