Junior Scrabble

This game provides the words on the board to be built in order, letter by letter, by the players. If you put down the last letter for the word, you collect the picture card for the word.

Preparation: Laminate and cut out the board on the next page, the orange letter tiles in the table below, and the picture cards. Place the letter tiles in a bag. Spread the picture cards out on the table where you can see them as you play.

Play: Each player chooses 7 letter tiles out of the bag and places them in a row on the table. On each player's turn, they have to put one letter tile down on the board to either begin a new word or continue a word that has already been started (in order). The stars are "wild" and can be used as any letter the player specifies. If the player doesn't have a tile to put down, he has to take more from the bag until he has one to put down.

Whoever puts down the last letter of the word reads the word aloud and collects the picture card for the word. The game is over when someone has used up all their tiles, then whoever has more picture cards - wins.
