

Lotto

In Lotto, each player has a board containing completely different words from those on any other player's board. Cards are pulled from a bag, and the first player to completely fill his board wins. The boards can contain words only, pictures labeled with their words, or pictures only. The cards to match to the board can likewise be words only (match the word to the word), pictures labeled with words, or pictures only (match to the word on the board).

To create a lotto game: fill in the two lotto boards with 9 words/pictures each, for a total of 18 words from the current or recent lessons.

If you are simply matching word to word, or picture/word to picture/word, you only need to make one pair of boards. If you are matching pictures to words or words to pictures, you need to make two pairs of boards: one with the words and one with the pictures.

Preparation: Print (*delete one*) one/two copies of the following boards. Laminate. Cut up one copy into 18 individual cards, store cards in a bag.

Play: Learner draws a card from the bag and reads (if it's a word) or recalls (if it's a picture) the word in English. The player with that word on his board places the card on his board in the appropriate spot. The player to fill his board first - wins.

LOTTO - Player 1		
word 1	word 2	word 3
word 4	word 5	word 6
word 7	word 8	word 9

LOTTO - Player 2		
word 10	word 11	word 12
word 13	word 14	word 15
word 16	word 17	word 18
